UAE Golden Visa Holder

EDUCATION

American University of Sharjah, UAE

Aug 2023 – Dec 2027

Bachelor of Science in Computer Science

Relevant Coursework: Object-Oriented Programming, Web Application Programming, Computer systems, Data Structures and Algorithms, Artificial Intelligence and Data Science

EXPERIENCE

SOC (Society of Cybersecurity)

Club PR-Coordinator

Sept 2023 – Jan 2026

- Organized 32 events including CTFs, workshops, and bootcamps
- Coordinated outreach with companies and industry professionals to support partnerships
- Represented the club in faculty discussions, supporting collaboration opportunities and external engagement initiatives

AUS Professor Review Web Application

Jan 2026 – April 2026

Team leader

- Developed a professor review platform for AUS students as part of a 4-member team
- Contributed to front-end and back-end development, feature planning, and project implementation
- Supported full-stack implementation using Java Servlets, MySQL, HTML, CSS, JavaScript, and Bootstrap

Blockchain Club

Club Co-Founder

Jan 2026 – May 2026

- Co-founded the AUS Blockchain Club to promote blockchain education and Web3 development on campus
- Created hands-on workshop materials for wallet setup, smart contract deployment, and blockchain explorer usage
- Led a technical Sui blockchain workshop covering Move token development, testnet deployment, minting, and burning

PROJECTS

Infrastructure-Driven Real Estate Valuation Model

[\[View Project\]](#)

- Built a Python DiD pipeline to analyze 1.7M Dubai property transactions and evaluate Metro Blue Line pricing effects
- Identified off-plan supply mix as the driver of the initial -6.7pt effect, with resale-only analysis showing near price parity

Phishing Triage Analyzer

[\[View Project\]](#)

- Built a phishing analyzer pairing a deterministic signal engine (lookalike domains, link spoofing, SPF/DKIM/DMARC parsing via .eml) with an LLM that explains each verdict in plain language
- Tuned detection against real legitimate emails to eliminate false positives; the AI explains findings but never changes the rule-based score

VeriCred: Blockchain Academic Credential Verification

[\[View Project\]](#)

- Built a blockchain academic credential verification platform, deployed live on Polygon Amoy, that registers credential file hashes on-chain and verifies authenticity through file upload, certificate ID, or QR code
- Developed a privacy-first Solidity registry with owner-only issuance, duplicate prevention, hash/ID lookups, MetaMask integration, in-browser SHA-256 hashing

SKILLS

Programming Languages: C++, Python, JavaScript, Java, SQL, x86 Assembly, MATLAB

Web Technologies: HTML, CSS, Bootstrap

Tools & Frameworks: Git, GitHub, MySQL, Java Servlets, VS Code, Eclipse

Languages: Arabic (Native), English (Fluent)
