CAREER OBJECTIVE

Computer Science student at the American University of Sharjah with a strong foundation in programming, data structures, and software development fundamentals.

Seeking an entry-level opportunity to apply and grow technical skills as a software engineer, contribute to real-world projects, and learn from experienced development teams.

Comfortable working both independently and collaboratively, with a genuine interest in continuing to build practical, hands-on development experience.

PROJECTS

Handicrafts & Clothing Brand Website

Web Application Development Course Project | HTML, CSS, JavaScript

- Designed and built a front-end website for a handicrafts and clothing brand as part of a Web Application Development course project.
- Structured multi-page site layout and styling using HTML and CSS, and added interactivity with JavaScript.
- Focused on clean navigation and a simple, responsive browsing experience for showcasing products.

SOFT SKILLS

Teamwork & Collaboration • Time Management • Communication

Attention to Detail • Adaptability • Problem-Solving
